DECLARATION OF BABAK S. SANI

Customer No.: 20350

UNDER 37 C.F.R. § 1.131

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

Sir:

I, BABAK S. SANI, hereby declare as follows:

- I am a patent attorney registered to practice before the United States Patent and Trademark Office (USPTO).
- 2. I drafted the above-referenced patent application, and the application was filed in the USPTO at my direction and supervision.
- 3. Prior to July 24, 1996, I met with Dr. Robert J. Proebsting and received from him a disclosure of the present invention.

- 4. On July 24, 1996, I sent a draft of a patent application describing the present invention to Dr. Proebsting for review. Exhibit A attached hereto is a true copy of the letter that I sent with the draft on that date.
- 5. On July 29, 1996, I filed a first provisional application with the USPTO via Express Mail. Exhibit B attached hereto is a copy of the USPTO filing receipt for the first provisional application, assigning a filing date of July 29, 1996, and application serial number 60/022,729.
- 6. The first provisional application disclosed the subject matter claimed in the present application, as can be confirmed by a review of the application in the USPTO files.
- 7. Between July 29, 1996 and August 9, 1996, it was brought to my attention that a document referred to in the specification of the first provisional application as "Appendix A" had inadvertently been omitted from the application papers filed in the USPTO.
- 8. On August 9, 1996, I filed a second provisional application with the USPTO via Express Mail. Exhibit C attached hereto is a copy of the USPTO filing receipt for the second provisional application, assigning a filing date of August 9, 1996, and application serial number 60/023,955.
- 9. The second provisional application differed from the first provisional application only in the inclusion of the document referred to as "Appendix A."
- 10. The present application was filed with a priority claim based on the second provisional application, as evident from the USPTO file of the present application.
